

BHUMISETU - National Land Governance Platform

Researcher Data Access Manual

This is the official Researcher Data Access Manual for the BHUMISETU platform.

1. Introduction

Welcome to the Researcher Data Access Manual. This document provides comprehensive guidelines and procedural steps for utilizing this specific module within the BHUMISETU National Land Governance Platform.

2. Scope

This manual covers all features, workflows, and access requirements pertaining to Researcher Data Access Manual. Ensure you have the necessary role-based permissions (Researcher, Policymaker, or Department Admin) before attempting the steps outlined herein.

3. Key Guidelines

- Always verify your data sources before upload or analysis.
- Geospatial mapping layers should be cross-referenced with official state repositories.
- For API access, ensure your authentication tokens are kept secure.

4. Support

If you encounter any issues while following this Researcher Data Access Manual, please reach out to the technical support team via the HelpDesk portal.
